

The Devil Fish Described by Hugo
Is not a more tenacious monster than malaria, whether it takes the form of chills and fever, bilious remittent, ague cake or dumb ague. Like the octopus of the story it clings to the victim in its tentacles, and folds him closer and closer in a horrible embrace. Attacked with Hostetter's Stomach Bitters, however, it gradually relaxes its tremendous grip, finally abandons it, and the quondam sufferer, liberated at last, rejoices in the new-born freedom, engendered by the restoration of complete health. Dyspepsia, too, and constipation, those old and remorseless enemies of the human family, give ground, and are finally driven from the field by the N. poleon of remedies, the greatest, the purest in the family pharmacopoeia. Rheumatism succumbs to it, so do kidney troubles. The nerves, when overstrained, regain quietude and by its aid are enabled to rest tranquilly and eat with zest are increased by it. Resort to it in time and avoid unnecessary suffering.

Worth Knowing.
Mr. W. H. Morgan, merchant, Lake City, Fla., was taken with a severe cold, attended with a distressing cough, and running into consumption in its first stages. He tried many so-called popular cough remedies and steadily grew worse. Was reduced in flesh, had difficulty in breathing and was unable to sleep. Finally tried Dr. King's New Discovery for Consumption and found immediate relief, and after using about a half dozen bottles, he is himself well and has had no return of the disease. No other remedy can show so grand a record of cures as Dr. King's New Discovery for Consumption. Guaranteed to do just what is claimed for it—Trial bottle free at Hodgkinson & Co's. drug store.

Renews Her Youth.
Mrs. Phoebe Chesley, Peterson, Clay Co., Iowa, tells the remarkable story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and lameness, and am able to do all my own housework. I owe my thanks to Electric Bitters for having renewed my youth, and removed completely all disease and pain. Try a bottle; 50c a bottle, \$1 at Hodgkinson & Co's. drug store."

Relieved of Kidney Trouble.
ROSSINI HOUSE, TORONTO, ONT.
I have been troubled with a backache for some time past, and great difficulty in passing urine. Three weeks ago I applied an Alcock's Porous Plaster, and have done so every five days since. Almost immediately I had partial relief, and now I am entirely free from pain—water passing freely and perfectly clear, without burning. I owe my great relief to Alcock's Porous Plaster and heartily recommend them in any case of kidney trouble. S. J. CHRONIN.

How Breeds are Formed.
We call attention to a fact hard to get farmers to understand, that breeds are the result of ages of certain climatic conditions in which the animal forms adapt themselves to the environment and become large or small, milkers or beefers, according to feed, exposure or manipulation by the owner. None of these breeds were ever formed by anybody. Like Topsy, they grew. Rich land and plenty of feed made big cattle; rough land and small feed made small cattle. The hairy Galloways, Shetlands and Kerrys are the result of the cold winds of the Scotch mountains; the mammoth Herefords, Sussex and Polled-Angus are the result of rich pastures and sheltered valleys. The milk productions of the Ayrshires, Red Polls, Jerseys, Alderneys, Guernseys and Kerrys is the result of milking in regions where butter and milk is in demand, and where the soil is not good enough to produce large beef cattle.

The same law holds good in France, which has no less than 17 breeds, ranging from cattle of the Shorthorn type in the valleys to Jerseys and Kerrys in the mountains, with the muscular or work forms developed in districts where cattle do the farm work. We might go through all the nations in Europe, Asia and Africa and find the same law holds good. The chief value of "Cattle and Dairy Farming" lies in this, that it demonstrates the law that nature forms breeds and man improves and modifies by selection and use.

The beef breeds always originate on a good soil, and by selection and judicious crossing and feeding can be greatly improved. If feed is withheld and hard conditions developed, the breed deteriorates. No record of fashionable breeding can keep up quality. The scrub farmer can scrub any breed. The milk breeds may originate in rich land or poor. The development of the milk quality beyond the demands of the calf is purely a matter of training. If the calf is allowed to run with the cow it is only a question of time when the milk-flow will accommodate itself to the demands. The quality of the milk and butter depends on the feed, not in one individual but from generations, until the habit of producing rich milk and butter or deficient is hereditary. The animal forms all the world over are determined by their environment; hence, the importance of feed, shelter and care.

The subject of pleuro-pneumonia legislation promises to be a prominent one in the present session of Congress. Senator Palmer's bill is just now the center of attention.

The Latest and Greatest Discovery.
Dr. J. De Prati's Hamburg Figs.—A crystallized fruit cathartic. A discovery of the greatest interest to the medical profession. A boon to every household. A most delicious laxative or purgative, prepared from fruits and vegetables. So perfectly harmless that they may be administered with entire safety to an infant. So efficacious to adults that a single dose will prove their value, and so elegant a preparation that it needs only to be presented to the public to become a necessity in every household throughout the land. For liver complaints, habitual constipation, indigestion, dyspepsia and piles, they are a specific. To travelers by sea and land they will be found invaluable. They are positively unfailing in their action, and this is the only medicine ever offered to the public that is acceptable to the taste, and so pleasant that children will eat the figs as eagerly as candy. For sale by every druggist throughout the world. Price 25 cents a box. J. J. Mack & Co., prop's, 9 and 11 Front street, San Francisco, Cal.

RIO BONITO COLONY!

LANDS FAMED FOR RICHNESS
Along the Feather River.
GROVES OF MAMMOTH OAKS OF SURPASSING BEAUTY.

Best of Soils for Oranges, Lemons, Figs, Peaches, Cherries, and all Tropical and other Fruits.
RIO BONITO COLONY LANDS ARE LOCATED IN BUTTE COUNTY, California, and along the prettiest part of Feather River. They are about eight miles south of Oroville, three miles from Gridley, and two miles from Biggs, on the Oregon and California Railroad, and seventy-three miles from Sacramento. There are growing on the lands white oak trees, some of which are thirty-five feet in circumference. The soil is a rich, sandy loam, and cannot be surpassed in productivity. Citrus and all kinds of deciduous fruits ripen here to perfection. Rio Bonito Colony Lands are a garden spot, and are certain to be the most popular for homes of any to be found in Central California.

Testimonials on the Land by Leading Butte County Citizens and others.

I have been over your tract of land on the Feather River for some time. There is no better land and no better place for a colony in the world.
JOHN S. GILSON, Real Estate Agent, Reno, Nev.

As good land as there is in Butte County.
JOHN DEAN, Biggs.

As fine a piece of land as there is in this county. First-class for cereals and fruits.
L. D. FARR, Judge Superior Court, Oroville.

Have lived on this land for nearly twenty years. No more healthy climate in the world.
M. BIGGS, JR., Biggs.

It will produce, without irrigation, any of the fruits grown in any part of the State of California.
—Higgs Argus.

No richer land can be found in all California.—Oroville Register.

As fertile and valuable tract of land as there is in Butte County. Just the kind of land for fruit culture; there is none better.
JACOB KAVICK, Gridley.

It is all splendid fruit land without irrigation. WM. SHARKEY, Biggs.

I regard your tract as the best body of land in California. Geo. W. CARM, Battle Mountain, Nev.

One of the finest bodies of land in the world; there is no bottom to the soil, and every inch of it is rich.
—Oroville Mercury.

A body of land as valuable and well adapted for all purposes of agriculture, especially fruit raising, as any land known to me.
G. K. SMITH, Banker, Biggs.

This section of Butte County is one of the best in California for fruit culture. Such land as this, if set out to fruits, would, at the end of three years, be estimated, be worth at least \$500 per acre. At this rate, twenty acres in fruit within three years would be worth \$10,000. The managers will take charge of the setting out of fruit trees for purchasers of land, and at the actual cost of doing the same.

The land is now for sale in tracts to suit at \$100 per acre, on easy terms—one-third cash; balance in one, two and three years at eight per cent. per annum.

Buy ticket to Biggs. Fare from San Francisco, \$5.20; from Sacramento, \$2.20. Stages from Oroville to Biggs pass the land daily. Send for circulars.

WEDNESDAY, JANUARY 25, 1888

The National Board of Trade has memorialized Congress to amend the naturalization laws that no person can be naturalized and given the rights of citizenship who does not bear and display to the court applied to for naturalization papers a duly authenticated certificate from the customs officer setting forth the day of the arrival of such person, the place of entry in this country, the port whence he departed for this country, his place of nativity, and the country he shall have left. The suggestion should be adopted. There can be raised no reasonable objection to making proof of the arrival. If made a matter of record at the port of entry, a certificate can always be procured. That will set at rest any doubt whatever concerning the term of residence having expired, required as a probation by the law. For those coming out of adjacent foreign countries, as Mexico and Canada, and not passing through custom-houses, some different provision would have to be made. But some documentary proof of the date of entry ought to be required, or its equivalent. The frauds that have been perpetrated in the absence of such proof have been a burning scandal for years. The proposed amendments will effectively put a stop to them, and prevent any one acquiring the right to vote without having resided for the required probationary period in the country.

JUDGE WELLS, of Carson, in a brief biography of the late Judge Earl in the *Tribune*, says: His name is Warner, and this writer knew him in the early part of 1852, in Butte county, California, where he was then engaged in mining, or on near the head of Oregon Gulch, about ten miles from Ophir, now Oroville. He had studied law before he came to this coast, but never engaged in practice while a resident of Butte county. The only manner in which he figured in any suit in Court in that county was as a defendant in an action of trespass, brought in a Justice's Court. In that action the Justice of the Peace issued an injunction, to restrain the defendants from working in or upon a mining claim, pending the action. An appeal to the County Court proved very disastrous to the experimental injunction! Tehama county was organized in 1856; and about that time Judge Earl removed from Butte to Red Bluffs, quit mining, began the practice of law, and remained in Tehama county until he left California to reside in Nevada. Wherever he resided on this coast, Judge Earl had the confidence and profound esteem of all his acquaintances, and not undeservedly so. Peace to his ashes.

The Boston *Herald* had an article of abuse of Nevada. The Leadville, Colorado, *Chronicle* seeing it came to our defense in these words: However, this "rotten borough" has only been a State a matter of twenty three years, and yet she has added to the nation's wealth about \$125,000,000 in gold and silver bullion. Fairly well for a young thing. And this amount would have been much greater still but for the persistent warfare which the charming Boston man and his friends have made against silver.

Then Judge Goodwin went after them through the columns of the Salt Lake *Tribune* in this vigorous manner:

One deposit alone on the Comstock gave up \$116,000,000; the great lead has yielded quite \$150,000,000 and the State more than \$500,000,000. The *Herald* talks of Nevada not from any knowledge of the State or its people, but because its editor imagines that it is a sign of ill-reliance now and then to air his own ignorance under a thin mask of Boston "eulchur." He talks of Nevada being a "rotten borough." He borrows that expression from old Dan of the *Sun*. He does not know the fact, but it is a fact all the same, that while the city of Boston polls four times as many votes as the State of Nevada, the amount of money necessary to influence an election in Nevada would make Boston give an overwhelming vote for annexation to Canada. Since Professor Sullivan was presented to the Prince of Wales the manners of Boston people have become as uply insufferable.

YAN PHON LEE, the Chinese Yale graduate, who recently married an American girl, is said to resemble a Frenchman in appearance and manners. He is described as a man of singularly charming manners.

The cold wave was very severe on stock in Antelope and Smith Valley, Douglas county. Hon T. B. Riley is said to have lost nine head of cattle in one day.

NEWS OF THE DAY.

[FROM DISPATCHES TO THE GAZETTE.]

A CUBAN DESPOT.

An Administration Moneycombed with Great and Corruptible New York, Jan. 25.—A Key West special says: During the last ten days Havana has been in a perfect turmoil and on the verge of mob violence. The trouble is caused by the unscrupulous acts of Captain-General Marin and his officials. Although Marin has been in office but three months, his administration is reeking with crimes of every description. The Government tax is short \$50,000; the local Board of Aldermen have gobbled \$40,000; the Cardenas tax officer is short \$10,000, and every official trust is honeycombed with fraud. Two weeks ago indignant citizens made a vain attempt to appeal to Marin for protection. A mass meeting was held, but Marin ordered armed guards about the gathering and prevented speakers from addressing the people. He then ordered a newspaper, denounced Marin's act, and yesterday the paper was suppressed by order of the despot. When Marin learned that several merchants were sending cablegrams of protest to the home government he placed armed guards about the cable office. On Sunday there were twelve murders, one suicide, eight highway robberies and four stabbing affrays in Havana and Cardenas. A special from Havana last night said that the situation was becoming more alarming every moment.

THE PACIFIC ROADS.

A Resolution for the Institution of Judicial Proceedings Against Them.

WASHINGTON, Jan. 23.—A resolution was introduced in the House yesterday by Representative Anderson, of Iowa, to authorize the institution of judicial proceedings against the various Pacific railroad companies. The preamble contains the charges of mismanagement and fraudulent manipulation of the affairs of the companies embodied in the House resolution of last year, and directs the Attorney-General to bring suit against the companies to enforce the forfeitures prescribed in the Thurman Act. He is directed to include as parties defendant in the suit against the Central Pacific C. P. Huntington, Leland Stanford and Charles Crocker, and in the case of the Union Pacific John B. Allee, Elijah Atkins, Ezra H. Bacon, Sydney Dillon, Jay Gould, Frederick L. Ames and Russell Sage. The Attorney-General is also directed to make an application to the United States courts for the appointment of receivers to manage the trusts.

ANOTHER NAINIMO HORROR.

Freightful Explosion in the Wellington Colliery.

VICTORIA, B. C., Jan. 24.—An explosion took place in No. 5 shaft of the Wellington colliery at 8:45 A. M. There were about 150 men in the mine at the time, whites and Chinese. The explosion was so violent that it wrecked the hoisting gear and blocked the bottom of the shaft for about 30 feet. There are, as near as can be estimated, 25 or 29 white men in the mine, and no hopes of rescuing them alive. The cage can be lowered to where the debris is. From there the rescuing party descended by means of ladders. The work of clearing away the debris from the bottom of the shaft is being pushed forward with all possible speed, and not till this is done can any of the dead bodies be brought up. None up to this time (10 P. M.) have been brought to the surface; 120 of the 150 in the upper levels have been brought to the surface.

The Last Witness Dying.

RICHMOND, Mo., Jan. 24.—David Whitmer, the last one of the witnesses to the truth of the "Book of Mormon," is now in a dying condition at his home in Richmond. Last evening he called his family and friends to his bedside and bore his testimony to the truth of the "Book of Mormon" and the Bible. He is past eighty years of age. Mr. Whitmer is an old citizen of this town and is known by every man here as a man of the highest honor. He is not and never has been a believer in polygamy. He left the Mormon Church in 1838, on account of their departure from the faith, as he believed.

Protests of Wool-Growers.

NEW YORK, Jan. 25.—President Ingalls laid before the Senate yesterday the resolution of the Chamber of Commerce of Salt Lake, protesting against any reduction of the duty on wool. The resolutions are indorsed by a committee of wool-growers owning 2,500,000 sheep, worth \$8,000,000. Mitchell presented the resolution of the Wool-Growers' Association of Nevada, Eastern Oregon and Idaho, adopted at a convention in Winnemucca, on the 21st inst., protesting against the reduction of the duty on wool.

Lawlessness in Cuba.

JACKSONVILLE, Fla., Jan. 24.—Reports from Cuba indicate a most serious condition of affairs. The cities of Havana and Matanzas have repeatedly demanded of Captain-General Canales protection from outlaws and official thieves. Business is partially paralyzed; opposition papers are suppressed almost daily, and the strictest censorship is kept over messages by cable. Martin Canales has been kidnapped from Santa Clara by bandits who demand a ransom of \$300.

An Enthusiastic Meeting.

BROOKS, Cal., January 24.—Another big mass meeting was held here last evening relative to the establishment of the proposed Methodist College. It was one of the most enthusiastic meetings ever held in the town. Speeches were made by C. C. Hakalea, of San Francisco, Major G. W. Calderwood, of Oakland, J. S. Shoemaker, of Nevada, and C. S. Freble, of Rio Bonito. The Committee on Funds reported that the amount required would be raised, and recommended the election of a Board of Trustees at a meeting to be held next Monday night.

A Heavy Defalcation.

CHICAGO, Jan. 25.—A Winnipeg, Manitoba dispatch says: The defalcation of Norquay to the Government will prove much beyond what was at first even hinted at. Already Premier Greenway has discovered a deficit of over \$600,000. An investigation revealed that for the sixteen months ending January, 1887 not a single entry has been made in the cash book of the

province treasurer. On January 1st the cash deficit and fraudulent issue of provincial bonds amounted to over \$475,000. In addition there are a large number of floating debts. The \$250,000 in subsidies received early in July has already been spent with the exception of a few thousand dollars. One of the last acts of the Harrison Ministry was to pay themselves and most of the civil servants salaries up to February 1st. Greenway intends to get some contractor to finish the Red river railway outside of the Government.

The Burning Copper Mines.

CHICAGO, Jan. 24.—A Calumet special says: A cave in the Calumet and Hecla mines, Saturday, made an aperture extending fifty feet from the shaft, but it has been successfully closed and the burning shaft is again sealed. Professor Agassiz, President of the company, says, after personally inspecting the condition of the mines, that he considers it almost out of the question to hope for its complete extinguishment.

Presidential Nominations.

WASHINGTON, Jan. 25.—The President to-day sent the following nominations to the Senate: Receivers of Public Money—Robert Kennedy at Shasta, Cal.; J. F. Linthicum, Sacramento, Cal.; Lewis Glynn, Marysville, Cal.; John J. Orr, of Kentucky, at Buffalo, Wyoming. Registers of Land Office—Jared A. Vananken, Central City, Col.; E. O. Miller, Visalia, Cal.; J. H. Craddock, Marysville, Cal.; W. H. Patton, Los Angeles, Cal.

NOTICES.

For bargains in dry goods go to Emrich's.

Fine carriages, side bar or end spring, at J. T. Longabaugh's, Reno, Nevada.

Matured Thistle Dew whiskey for medicinal purposes, in quantities to suit, at W. Pinniger's drug store.

J. F. Aitken will saw your wood with his steam machine, or deliver wood already cut any length desired.

Aitken is now prepared to deliver water at residences for 25 cents a barrel. Leave orders at Meyers' cigar store. 20-1w.

W. Pinniger, the Reno druggist, has on sale in quantities to suit, matured Thistle Dew whiskey for medicinal purposes.

Wallace & Beebe, corner of the Plaza and Virginia street, have received a choice lot of fresh groceries that are sold at very low prices.

Drop into J. J. Becker's and partake of his excellent hot lunches every day at noon. The finest brands of beer kept on draught.

For lead pencils, slates, writing paper, novels, toys, and bird cages, go to C. J. Brookins'. Piano and organs on the installment plan.

Abraham Bros. believe in quick sales and small profits, and are prepared to furnish the public with the best and latest styles of gente clothing and furnishing goods.

Man wants but little here below, but he wants that little well cooked and clean. This is the reason why so many hungry people patronize the Arlington house in Carson.

Havenor carries only choice groceries, and his prices are the lowest. He brings his goods direct from the largest wholesale houses in San Francisco and the East.

C. A. Thurston keeps a full assortment of purses, ladies' hand satchels, fine cutlery, all kinds of blank books, letter pads, envelopes, and all the leading journals, periodicals, etc.

Saur kraut, salt salmon and mackerel, maple syrup, dried fruit, canned goods, Oregon apples, Our Taste hams, eastern cheese, Almoner mince meat, at E. C. Leadbetter's.

Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason people like to take the medicines usually prescribed. HAMBURG'S PILLS were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. Beware. At all druggists. J. J. Mack & Co., proprietors.

CARSON GOSSIP.

The Events of the Past Week Chronicled.
Regular Correspondence Gazette.
CARSON, Jan. 24, 1888.
EDITOR GAZETTE:—The past week has been one of a variety of topics for town talk. We have had organized, from among the young ladies and gentlemen of the town, an amateur dramatic association, who promise us in the near future a representation of the melo-drama entitled *Kathleen Mavourneen*. As some of its members possess a goodly amount of histrionic talent, we anticipate a pleasant entertainment.

Sunday the *Appeal* informed us of the losing of a colored lady who lately shone in society, and caused a weak colored brother to take a shine to her it is believed, as the bereaved husband has been trying to trace the elopers, and if found his vengeance will have away.

We have been informed that through the representations of Senator Stewart, the Department of Indian Affairs will aid in making the proposed Indian school, for which an Act was passed last Winter, a thing of absolute reality, and as it will receive a regular appropriation from Congress, it will be a joy forever to the Carsonites.

From the way silverware and bric-a-brac is being priced your correspondent is led to suppose a more than passing event is to take place among our Jewish citizens. We guess a wedding.

During the cold snap numerous whist clubs were organized, and the query of "what's trumps?" was indulged in freely for a while, but we are told, not having fully mastered our copy of pike as yet, that the games are the most scientific that are played outside of San Francisco. You may anticipate a challenge to your best players in a four-round contest, Marquis of Queensbury rules to govern, to a finish. I guess I have got my book of "Self Defence Without a Teacher" consulted with my whist authority.

The amusements this week are the skating rink, dancing school and soiree and Neil Burgess in *Vim*. Yesterday at 1 o'clock the Carson friends of Mr. Joseph Noyes attended the funeral services at the State Prison. Mr. Noyes was, I believe, a resident of Washoe county, and came to the prison to accept a position as guard under Warden McCullough. He was taken with pneumonia, and though he received all the medical attention that was possible, died on Sunday at 1 o'clock A. M. He was most highly spoken of as a man of many sterling qualities.

Neil Burgess in "Vim." The Virginia *Enterprise* has the following to say of last night's performance of the Neil Burgess troupe in the opera house in that city: Neil Burgess drew a great crowd to the Opera House last evening to see his impersonation of Tryphena Puffy, the lady-lord of the household in the obnoxious play of "Vim." And what was best of all he kept the house in a continuous roar of laughter. He was a great favorite in the East ten years ago, and his travels and experiences have in every way improved his acting. He was excellent in every part, and his witticisms were so new on the Comstock that they created unbounded merriment.

Mr. Burgess has an excellent cast, but he is the life of the stage, and everybody who believes that a good laugh is almost as wholesome as a good breakfast, should go to-night and see his performance of "Widow Bedott"—the piece in which he achieved fame.

The troupe will appear at the Nevada theater Friday evening. Reserved seats at the postoffice.

Too Much for It. The Oakland (Cal.) *Times* tells the following o'er true tale anent the President's free trade sentiments: W. R. Hall had a sheep that was sick, and for convenience placed it in the yard back of a drug store. He was there several days and feed began to get scarce. The poor sheep found a copy of that standard journal, the *San Francisco Chronicle*, and at once proceeded to make his noonday meal. He had almost completed his task when he was observed to gag and begin coughing. The paper was examined and found to contain the President's message to Congress. The animal had devoured the entire paper except the portion relating to the repeal of tariff on wool. This seems strange, but it is a fact. He could go all else except the tariff on wool. That stuck him.

State of Blooded Stock. Killip & Co., the well known live-stock auctioneers, will sell at public auction at the Bay District track, San Francisco, February 16, standard-bred trotting stallions, brood mares, colts and fillies, Cleveland Bays, trotting and roadster geldings, the property of Seth Cook, of Danville, Contra Costa county, Cal. All are pedigreed animals from the choicest strains, and catalogues giving full description can be had on application to Killip & Co.

The Coldest Place Yet. During the cold snap many places put in a claim to being the champion cold place, but if the following is true Virginia City carries off the title. A young lady in that city, upon going to bed, took with her two bottles of hot water to place at her feet. In the morning the bottles were found burst in the bed and the contents solid ice. A confirmed bachelor, upon hearing this, growled under his mustache that the young lady had cold feet.

Ayer's Sarsaparilla is prescribed and recommended by eminent physicians, and is taken with perfect safety by old and young. Its cleansing and vitalizing effects are sure and speedy, and it is universally conceded to be the most effective of all blood purifiers.

For lame back, side, or chest, use Shi-lun's Electric Plaster. Price 50 cents. For sale by O'Brien & Shumaker.

BREVITIES.

Local and General Intelligence.
A dog-poisoner is at work at Winnemucca.

The Truckee river at this point is still frozen over.

A six-room cottage is offered for sale. See fifty-cent column.

Some sensational developments are promised in the Henderson trial.

Another young couple will shortly bother Tom Julien for a license to wed.

The books of the officials of Modoc county, Cal., are being inspected.

Railroad men state that there is now but little snow between here and Lovelock.

L. L. Tucker, aged about 60, cut his throat near Grass Valley Sunday, and will probably die.

A butter famine prevails in town. Not a roll of fresh butter could be found in any of our local stores today.

Los Angeles always keeps up with the procession. A case of small-pox has been discovered there.

The Carson *Appeal* says the sympathy of the people there is with Max Grossman, who is accused of tampering with a seven-year-old girl.

C. C. Powning yesterday retired from the Bank of Nevada, and will hereafter devote his attention to the *Journal* and his real estate interests.

Alex McKenzie and Miss Downey, both of Mason Valley, were married at the residence of C. O. Damon, Wabaska, last week. It was a case where love laughed successfully at locksmiths.

All the stockmen of Modoc county, Cal., are feeding their stock cattle. The man engaged in that county in stock-raising, who is not prepared to feed, is considered on the "rough and ragged edge."

Our real estate agents report an active demand for residence and farming property from parties living in the Eastern part of the State, and the outlook for a lively trade in real estate in the Spring is good.

A cyprusian, answering to the name of Miss Boyd, paid \$10 to Justice Young today, the amount he assessed her for disturbing the peace of the quiet neighborhood of Center and Second streets yesterday.

A thoroughbred Galloway cow, imported from Missouri last Spring by Reynolds & Jackson, of Modoc county, Cal., has given birth to a calf. This is the first thoroughbred Galloway born in Modoc county.

The Harney Valley (Or.) *Items*, of the 11th inst., says: The range cattle are suffering severely from the deep snow and cold, and unless the weather moderates materially and a chinook visits these parts, there will be very heavy losses.

It is reported that a railroad thirty-two miles in length is to be built between Eureka and Seligman. Such a road would connect the mines of White Pine with the outside world, as the Eureka road connects with the Central Pacific at Fallisades.

Judge Bigelow to-day sentenced John Mello, convicted of petit larceny, to ninety days in the county jail. In passing sentence the Judge regretted that he could not give him at least one year, but as the case was not a State Prison offense, he thought that ninety days would be as much as the county could stand for board and lodging.

Jesse Harris, of Fort Collins, Colorado, has just returned from Europe with a large shipment of horses, among them a number of Yorkshire Coach and Hackney stallions, but the majority are Cleveland Bays. In writing to the *GAZETTE*, Mr. Harris states: "I can now show my Western friends the best and largest stable of Coach horses in America."

Owing to the first venire of jurors summoned to try the Henderson rape case being exhausted, the Sheriff this morning directed to subpoena twenty-five more good men and true, who are required to be on hand in the District Court tomorrow morning at 10 o'clock, there to show cause why they should not be sworn in as jurors to try the case.

Elko Independent: The rule adopted by the Central Pacific Railroad recently requiring all packages of less than 100 pounds in weight to be billed at 100 pounds, second class, has been abandoned and packages will hereafter be billed at actual weight in the class to which they properly belong; but no package will be carried any distance for less than two bits.

A Chance for the Ladies. The Palace dry goods and carpet house is out to-day with a new double-column advertisement, in which Levy Bros. proclaim to the people of Reno that the pruning knife has been applied to the fancy prices which have so long prevailed here for goods in their line. The feature of the present week is the great sale of remnants, of which they have a limited quantity on hand and for which no reasonable offer will be refused. In addition to this line of goods they have in stock the finest quality of Brussels carpet ever brought to this market. Our people should, inspect their goods.

Hon. C. S. Young Injured. A dispatch to the *San Francisco Chronicle* from Biggs, dated the 23d inst., says: "Hon. C. S. Young, while viewing the planting of fruit trees on Rio Bonito ranch, standing on a gang plow, was thrown by the mules starting suddenly and struck his head on the sharp edge of the plow, cutting a long gash over the ear on the side of his head. He was conveyed to town."

RIO BONITO.

Its Beauty and Fertility Captures a Reno Merchant.

A. Abrahams, of the White House clothing emporium, is a heavy investor in California real estate, his latest purchase being a tract of land in the Rio Bonito colony, Butte county, Cal., the colony which Messrs Preble & Young are the managers of. In speaking of his purchase to a *GAZETTE* representative, Mr. Abrahams said that never in his life, during which time he has traveled extensively, had he seen such a rich and fertile country. Everywhere the profuse vegetation and general prosperous appearance of the farm-houses proved that the claim made that it was the most fertile section in the Golden State was founded on fact. Mr. Abrahams, in speaking of the possibilities of the colony as a fruit-producer grew eloquent, and stated that any variety of fruit grown in the United States can be grown there with profit. Believing in acting with him, and he has already given orders that the tract purchased by him be immediately prepared for tree planting, and by Spring he expects to have a young orchard, which will in the years to come be a profitable source of revenue to him.

The Reno Guard. The Reno Guard is now entitled to the distinction of being the largest and best equipped militia company in the service of the State. It has been completely reorganized during the past month, and now has 55 active and 35 contributing members on its roster. A gymnasium outfit has been ordered from New York, and it is also the intention of the members to add a reading room to the armory where all the latest periodicals and State papers will be kept on file.

G. A. E. Notice. Mitchell Post No. 89, G. A. R., will hold a special meeting Thursday evening, January 26. Business of importance will be discussed, and every member is requested to attend. A. A. EVANS, P. C. N. P. JAMES, A.

Recruits, Attention! The recruits of Company C, Reno Guards, will report at their armory this evening at 8:30 for drill. CHAS. A. JONES, 1st Lieut.

Great Saving in our Prices.

Nothing has created so much talk as Breuner's elegant and immense line of Bedroom and Parlor Furniture. Suites for two, three, four, five and six hundred dollars. We can furnish you with a suite—the finest in the land or the cheapest to be had. Our trade has demanded that we carry the richest lines, and to-day we are shipping goods to San Francisco, Oakland and other parts of the State. San Francisco merchants cannot compete with us, as their store rents and other expenses are enormously high. Everybody admits that we sell the cheapest, and everyone who visits our stores says our assortment is as elegant as it is large.

If you desire anything in our line and cannot visit our stores, write us stating articles you want and will send you photographs and prices, and give you the same satisfaction as if you were selecting in our stores. Send for photograph of our \$200.00 bedroom suite.

Nothing has created so much talk as Breuner's elegant and immense line of Bedroom and Parlor Furniture. Suites for two, three, four, five and six hundred dollars. We can furnish you with a suite—the finest in the land or the cheapest to be had. Our trade has demanded that we carry the richest lines, and to-day we are shipping goods to San Francisco, Oakland and other parts of the State. San Francisco merchants cannot compete with us, as their store rents and other expenses are enormously high. Everybody admits that we sell the cheapest, and everyone who visits our stores says our assortment is as elegant as it is large.

If you desire anything in our line and cannot visit our stores, write us stating articles you want and will send you photographs and prices, and give you the same satisfaction as if you were selecting in our stores. Send for photograph of our \$200.00 bedroom suite.

For Sale.

\$20,000. Mrs. Howard offers her ranch for sale. The ranch is on the Virginia road, the most beautiful of all the country roads in Nevada. It is located eight miles from Reno and in a fertile agricultural section. The ranch consists of about 800 acres and a valuable water right. The ranch has long had the reputation of being one of the most productive of its size of all the ranches in the Truckee Meadows. This year it has produced 800 tons of hay, pasture for 200 head of stock, vegetables and other products to the value of \$10,000. The expense of running the ranch for the year would be \$5,000. The ranch could be made to be even more productive. It is a beautiful place. The soil is admirably adapted to the raising of alfalfa, stock and vegetables. It has an excellent house, barn and other buildings, a good orchard and other improvements. For sale, \$20,000; cash and for remainder in five equal annual installments. Interest at 8 per cent. per annum.

\$13,650. A Banta's ranch located about five miles southeast from Reno is offered for sale. It consists of 450 acres, which will be sold at \$30 per acre, or for \$13,650 and on easy terms of payment. There is on the place a good house of eight rooms, two barns and other outbuildings. The place is well watered by fine irrigation water and as many as fifty springs of excellent drinking water. The ranch yielded this year 500 tons of hay and pasture valued at not less than \$12,000. The total valuation of this year's yield is a little less than \$4,000, and one year's yield has amounted to a much as \$5,000. As the ranch consists chiefly of pasture and meadow land, the expense of running the place is exceedingly small. The ranch is especially desirable as a stock range and for this purpose would yield a handsome profit on the amount invested.

FOR SALE—Lots 10, 11, and 12, in Block, 4, Marsh's Addition, south side of river, very desirable location. House of two rooms (hard finished), paved, lot cleared; size, each 50 by 140. A bargain.

\$300. Lot 50x175 feet, on the Virginia road, short distance from court house; a very desirable location, and the best bargain in Reno for the price. Perfect title, ditch flows through the property.

80 ACRES OF LAND under improvement; good buildings and fence; 70 acres in alfalfa; choice orchard—600 bearing fruit trees; 5000 nursery stock; well situated 1/2 mile from the C.P. railroad depot, Reno.

FOR SALE—Horse and lot on east side of Virginia street, one door north of fourth street; lot 50 by 140; house of five rooms. A very desirable locality.

FOR SALE—Lot 125 ft. by 140 ft., on east side of Virginia street, on site residence of B. F. Lee. This is a very desirable piece of property.

40 ACRES OF LAND; 25 acres in alfalfa; 1750 forest trees; all under fence. Situated 1/2 mile from railroad depot, Reno. Real 1st, beautifully situated for residence.

560 ACRES; 100 acres enclosed by a substantial fence; 30 acres under fine cultivation; balance wild land—good for pasture. Will cut 250 tons alfalfa this year. Two acres of young and bearing orchard; good seed land.

Perfect title to 56 inches of water. New two-story house of three rooms; hard-finished; good barn. Situated 3/4 mile from Reno. Price, \$2,000—\$2,000 down, balance on time at reasonable interest.

3,000 ACRES under substantial fence. ABUNDANCE OF WATER FOR IRRIGATION. 300 acres in wheat, barley and alfalfa. Controls an immense outside range for cattle or sheep.

\$2,000 WORTH OF HORSES, MARES AND COLTS. All kinds of farming utensils. Machinery, Wagons, blacksmith shop, etc. etc. Plenty of water close by. Ranch lies 20 miles south of Austin. This would make one of the best stock ranges in the state. Price, \$15,000. Easy terms of payment given.

Also several large properties in Truckee Meadows, properties at Stockton, San Jose, San Francisco and Alameda.

Mines bought and sold. The firm has numerous correspondents who are dealers in mining property.

CORRESPONDENTS: JAMES A. CLAYTON, San Jose. POMEROY & GATES, Los Angeles. HANNA, SWAYNE & CO., Stockton.

Sisters of Charity

Charity, attached to St. Mary's Infant Asylum, Dorchester, Mass., certify to the inestimable value of Ayer's Sarsaparilla in the treatment of sore eyes and skin diseases, among the many unfortunate children under their care. Mrs. S. D. Bodwell, (Wilmington, Mass.), writes concerning the treatment of her daughter, who was troubled with sore eyes, as follows: "I gave Ayer's Sarsaparilla to

My Little Girl,

For a Number of Years,

I was cured of both diseases by using six bottles of Ayer's Sarsaparilla." M. G. Train, Duxbury, Mass., writes: "I have found Ayer's Sarsaparilla an efficacious remedy for bilious troubles and dyspepsia." Henry Cobb, 41 Russell st., Charlestown, Mass., writes: "I was completely cured of dyspepsia, by the use of Ayer's Sarsaparilla." Wm. Lee, Joppa, Md., writes: "I have tried Ayer's Sarsaparilla, and it has done me so much good that I shall always regard it as the best of blood purifiers." Eminent physicians prescribe Ayer's Sar-

aparrilla. I believe it to be the best of blood purifiers." Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U. S. A. For sale by all Druggists. Price \$1; six bottles for \$5.

In Brief, and to the Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this bad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember: No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents. (now)

Hussey's Remedy

BLACKLEG IN CATTLE.

I AM making a tour of this State introducing the above-named Remedy.

It is infallible! I have the proofs I guarantee my work. I treat cattle in herds that are dying, and warrant them for fifty cents a head never to die from the disease.

I have been treating cattle in California for nearly three years successfully and have sold the Remedy to most of the principal stockmen in the State.

I am prepared to furnish satisfactory proofs of the efficacy of my invention.

Sanitary Legislation.

That the stock interests of the United States have suffered greatly from the presence of contagious pleuro-pneumonia during late years no sane man will attempt to deny.

There are a few chronic kickers who deny the existence of the disease in the west, but none are so rash as to say the east is free from the plague.

Whether the Chicago and other western outbreaks were or were not pleuro-pneumonia makes no difference as to the necessity of competent national legislation to cleanse the country. Having secured lodgment in the east it is liable to secure a foothold in the west at any time.

While the bureau of Animal Industry has done, and is still doing, all in its power to wipe out the disease, the fact remains that in a number of States the plague still lingers. The quarantine of infected districts is a safeguard, but escape is impossible.

Hence, so long as a single infected animal remains anywhere within our broad domains there is no absolute safety.

Either we must have new laws or amendments to those already in force so as to give full power to the constituted authority to deal in an heroic manner with all outbreaks and speedily relieve the country from the present great strain upon the cattle industry.

Under proper laws the country can be purged in two years so as to open the markets of the world to our cattle, thus adding ten dollars to the value of every member of the bovine race in the country. This item alone would aggregate over four hundred million dollars of increase to our herds.

Can any member of Congress look this matter squarely in the face, realize the situation and refuse to vote the necessary relief? Not if he is an honest man and has the good of his constituency at heart.

There may be an honest difference of opinion as to how this relief is to be given, but on the fact of relief there can be no two opinions. The people have the right to demand, and they do demand of Congress the passage of the necessary laws to give us the relief prayed for. In just what form the measure shall be clothed is not so material as that it shall be strong and give full authority.

A Washington telegram of January 12th, is as follows: "The Senate Committee on Agriculture gave a hearing this morning on Senator Palmer's bill to extirpate contagious pleuro-pneumonia, foot and mouth disease and rinderpest among cattle. Dr. Axel Ames, of Chicago, E. S. Wilson and C. P. Johnson, of the Illinois Board, and Congressman McShane, of Nebraska, and Delegate Carey, of Wyoming, appeared in support of the bill. Dr. Ames acted as spokesman, in the absence of Maj. Towers, of Kansas City, President of the Consolidated Cattle Growers' Association. Dr. Ames said the bill differed in but one slight respect from the bill passed by the Senate last session and which was recommended for passage by the legislatures in eleven States and many Boards of Trade. The Government Bureau of Animal Industry has been in operation three years, and, in the opinion of those most interested, has proved inadequate for the emergency. The march of the disease has been such that the Secretary of the Treasury had interdicted the importation of cattle from Scotland, whence much of the disease comes. In this country, east of the Alleghenies, a number of centers of the disease existed, and west of the Alleghenies, while there are no new centers of disease, it is believed there is serious danger of its breaking out afresh. The fear was expressed that the disease might reach the ranges where it would be impossible to eradicate it. It was estimated that pleuro-pneumonia among cattle had already caused a loss of \$20,000,000 to \$30,000,000, besides a loss of \$10 to \$15 on each head of cattle exported to Great Britain. On the constitutional features of the bill a new point was urged, the Speaker maintaining that as six or seven States were quarantined, a single case each on account of the disease constituted such a hindrance to interstate commerce as to warrant Congressional action."

Congress is supposed to be made up of the best men from all of the sections of the United States, and it does seem to us that with the immense pressure from all quarters there should be no trouble in these representatives of the people compromising their differences of opinion and uniting on a law that would give us a chance to rid the country of disease and forever keep our premises clean.

No bill has ever passed Congress in time of peace that gave as many dollars to the people as would the passage of a law under which in two years we could purge the country and secure clean bills of health to all foreign markets. Give us relief and open the channel of trade.
